# ARRI TECHNICAL NOTE P-1018

## CAUTION: PL Mount Screws
## August 1, 2000

**Summary**

This note explains why the 16SR 3 PL mount screws should not be used on any other ARRI camera.

**Caution!**

The screws used to attach the PL mount to the 16SR 3 are 4 mm longer than the screws used on other ARRI PL mounts. Do not use these screws to attach a PL mount to any other ARRI camera. On some other ARRI cameras the longer screws will actually reach the mirror shutter and will shatter it when the camera is started!

16SR 3 PL mount screw dimensions: M 2.5 x 10 mm
16SR 3 PL mount screw part number: 05.01444.C

Other ARRI camera PL mount screw dimensions: M 2.5 x 6 mm
Other ARRI camera PL mount screw part number: 05.01380.H
